TRAIL CAMERAS

CORE™ Trail Camera

MORE INSIDE FOR WHATEVER IT TAKES OUTSIDE. Every CORE™ Trail Camera is built with features inside to give you images that reveal more in the tough world outside. More speed and range to capture more useful images. More battery life to function longer so you enter their havens less. More options for preset or custom settings to maximize your camera for your conditions. All with legendary reliability that only comes from sturdy materials built to withstand the heat, cold, teeth and claws that Mother Nature throws at it.

- 100 ft night range
- 24 megapixels
- 0.3s trigger speed
- 3-Preset Menus + Advanced Mode
- 1 second recovery rate
- 1080p 30 fps video w audio
- 1-year battery life
- Removable Battery Tray
- Two-year limited warranty
